

## Fresh Produce

Grow West's Trucking Division continues to expand and increase logistical capabilities for all of your operational needs. We believe in building and maintaining long-term relationships that allow us to understand your business so we can provide the best service. We pride ourselves on our independent, industrial trucking business that has been built through 60 years of experience.

We understand logistics. With excellent leadership and communication through our entire process, we ensure that your needs are met, even when conditions change. Our team of drivers are proud of work they do, with excellent records of safety through CHP and DOT. From our drivers to our dispatch team, we will take time to understand your operation to best serve your needs.

## Unique Offerings

### FOOD GRADING STATION

Our facility in Walnut Grove is unique to the industry, providing you the opportunity to take a step out your equation and allow us to handle the grading process for you.

### BIN STORAGE AND REPAIR

Our storage yard has the capacity to hold 30,000 bins. We handle the outbound and inbound logistics and tracking of your bins and manage our location like a distribution center. All with cost savings for you in mind.

### LOGISTICS PARTNER

We are involved in every part of the logistics chain when it comes to fresh produce. From our bin storage to your food grading station, Grow West is your capable partner for all your fresh produce hauling needs.
